# Mec Tr<sup>Group</sup> we care for media solutions

### The MedTriX Group – a new alliance for a new era

Digital transformation is taking place in every field. Everything we do is geared towards finding the best solution in today's increasingly complex media world. We focus on changing needs, actively involve target groups in development steps and rely on innovative technologies. In this way we create scalable business models and tailor-made products that are sustainable and simultaneously set new standards in the market.

We achieve this thanks to our diversity in the entire German-speaking world, our forward-looking teams, our digital expertise, our established media brands and not least thanks to our many years of experience as a publisher.

# OMNICHANNEL AWARENESS PACKAGE DATA-BASED & ACCURATE TARGET GROUP APPROACH

tore to the total of tota

This multi-stage strategy enables us to achieve broad coverage of the Austrian medical landscape and to ensure that relevant information on the indication of cardiovascular diseases is distributed effectively and in a targeted manner.

### STEP 1

**AFFINITY ANALYSIS:** 

The affinity analysis is carried out in order to analyse all further training activities, specialisations and areas of interest of the Austrian medical landscape in the field of cardiovascular diseases. Doctors who have specialised in this field or are interested in it are identified. This enables targeted communication and expansion of the target group supported as well as better care for patients through awareness of the disease and generation of referrals for the relevant specialists.

### STEP 2

### CHANNEL BEHAVIOUR ANALYSIS:

Analysis of the channel preferences of doctors specialising in cardiovascular diseases provides valuable insights. This information is used to develop an effective channel strategy that enables the best possible customer experience via different communication channels such as email, telephone, fax or specialist magazines.

Subject to change without notice

### STEP 3

### TELEPHONE CONVERSATIONS WITH THE TARGET GROUP:

### STEP 4

### EDITORIAL FOCAL TOPIC AUF MEDONLINE.AT:

At the same time, we establish a special section on medonline.at dedicated exclusively to the topic of cardiovascular diseases. This section is regularly enriched with high-quality content and offers direct access to the latest research results, clinical studies and guidelines in the field of cardiovascular diseases. The focal topic thus offers an ideal environment for advertorials, banners, further education, expert interviews and much more.

(Period from 1 Jan 2022 - 31 Dec 2022)

medonline.at is a platform specialising in medical information and news. It is aimed at doctors, pharmacists and interested medical professionals. The platform offers a wide range of content, including articles on various medical topics, current research results, information on diseases and their treatment, and practical medical resources such as guidelines and recommendations.

In the congress news you will find the highlights of the most important national and international congresses summarised in articles and videos. Focal topics on different indications and (specialist) fields offer the possibility to present information in a focused format. In addition, the platform offers further education opportunities in the form of DFP further training and patient cases.

### REPORTING

a detailed report is provided at the end of the period

PERIOD from 2 months

Our specialist publisher enables readers to keep up to date with the latest medical developments. Our editors attend medical congresses, conduct interviews and produce comprehensive reporting that is accessible on medonline. Here, readers can find not only the congress coverage, but also further information such as summaries, presentations and other relevant resources. This platform facilitates an effective knowledge transfer and promotes professional exchange within the medical community. This gives physicians and other HCPs the opportunity to participate in high-profile events, even if they cannot be there in person due to time or geographical constraints.

### **INCLUDED SERVICES**

- Landing page with extensive congress reporting
- · Editorial concept and creation of content by our specialist editorial team
- Integration of expert opinions (optional)

# DIGITAL DFP TRAINING COURSES

# DFP E-LEARNING

E-learning on medonline serves to support continuing medical education. Advances in the respective subject area or indication are communicated and consolidated in the relevant target group. In addition, the latest scientific developments, findings and expertise are strengthened in this group. Depending on the topic, it contains videos, texts or even interactive elements to provide a comprehensive learning experience. The doctors also have to answer questions to check their understanding and knowledge and earn DFP points.

As a pharmaceutical company, you have the opportunity to financially support the creation of e-learning courses and thus make a valuable contribution to the continuing education of doctors. At the same time, by sponsoring independent medical e-learning courses, you can strengthen your image as a responsible promoter of knowledge and gain recognition for certain indications.

We would like to emphasise that, due to the DFP-approved learning format, you will not have any influence on the content or design of the e-learning. We will ensure that the content remains independent and unbiased and so guarantee that the training meets the highest quality standards.

### **INCLUDED SERVICES**

DIGITAL

- Didactic preparation and digital implementation of educational content as an interactive module (image & text)
- Creation of a landing page
- Integration of static infographics
- $\boldsymbol{\cdot}$  Integration of the sponsor logo on the course home page
- $\boldsymbol{\cdot}$  Review of the e-learning by an independent lecture board
- Approval of the e-eearning from the Austrian Academy of Doctors
- Placement on medonline and meindfp.at for a period of 18 months

### ADVERTISING

- DFP newsletter from medonline
- Mailing to a defined target group with integration of the company logo
- Continuous marketing throughout the duration with various specialist newsletters from MedTriX
- Teaser box on the DFP overview page
- 1/3 page ad in a print medium of your choice
- Optional: Promotional cards with a QR code for the sales team

### REPORTING

after completion of the first quarter and at the end of the period (end of quarter)

### € 20,490.-

## DFP LITERATURSTUDIUM

Expert-accompanied DFP training course which appears online and is also enclosed with a printed magazine as a DFP special issue. Literaturstudium [literature study] differs from e-learning in that the content is prepared and presented differently.

### **INCLUDED SERVICES**

- · Content creation by one or several experts
- Didactic preparation as well as digital implementation of the study text plus creation of a special issue
- Review of the literature study by an independent lecture board
- Approval of the literature study from the Austrian Academy of Doctors

# TRAINING COURSES & EVENTS

Advisory Board Meeting Expert panel Consensus meeting Roundtable

### We design & organise a variety of bespoke events providing tailor-made solutions for your wishes

Reach your relevant target group with our sponsorship packages at one of our training events. We organise expert panels and also develop consensual guidelines and expert opinions with the help of respected opinion leaders. This allows us to increase the KOL engagement in a targeted manner and make a key contribution to your product's success.

We hold these events in collaboration with renowned professional societies and industry figures, and we are also a DFP-approved provider if this is required. Target groups are determined individually or on request depending on the topic.

The results will be published in a special publication if required. On request, we can use other communication channels within our broad portfolio for the publication.

## **ADVISORY BOARD MEETING**

"Status guo survey" of a new substance by independent opinion leaders - both before and during a product launch. The results will be published in a special publication.

### **INCLUDED SERVICES**

- Organisation management (holding the meeting)
- Participant management (invitations advertising.
- print and online, registration management/maintenance) Development of the topic and list of questions by our scientific editorial team
- Medical Writer and presentation by our specialist editorial team\*
- · Coordination of participation and process, reporting
- Location (MedTriX GmbH)\*\* / technology / basic catering (special catering on request)

### PUBLICATION (6-8 PAGES, A4) DIGITAL (PDF FORMAT)

- · Creation of the expert statement by a Medical Writer
- Scientific review and exchange with the chairperson
- · Project management (approval work, image selection, corrections, layout, production, etc.)

from € 9,490.-

Production as a special print (expertise) and insert in one of our print publications (incl. 500 copies for free distribution)

on request

## **EXPERT PANEL**

Leading experts discuss an indication or a product and its possible therapeutic applications from different perspectives. Duration approx. 3-4 hours. The results will be summarised and published.

from € 7.900.-

# **CONSENSUS MEETING**

National opinion leaders develop a consensual opinion on an indication or on a subject and its treatment options. The write-up is published as guidelines and a consensus statement. Duration approx. 3-4 hours.

### **INCLUDED SERVICES**

- Organisation management (arranging and holding the meeting)
- · Participant management (invitations advertising, print and online, registration management/maintenance)
- Development of the topic and list of questions by our scientific editorial team
- · Medical Writer and presentation by our specialist editorial team\*
- · Coordination of participation and process, reporting
- Location (MedTriX GmbH)\*\* / technology / basic catering (special catering on request)

# ROUNDTABLE

Our readers are key actors in the health care system. Specialists, pharmacists, healthcare professionals and decision makers in the pharmaceutical industry and professional associations. In the future, we want to discuss specific topics with specialists in a roundtable format and share this knowledge and expertise via our publication, encouraging further public discussion. Do you have an interesting topic for us to cover? Then let us know.

Leading experts from the health sector, politics or business (4-5) discuss a current health policy or economic topic from different perspectives. The results are summarised and published in one of our print publications and on medonline.

### INCLUDED SERVICES

- Organisation management (holding the meeting)
- · Participant management (invitations, print and online distribution)
- Development of the topic and list of questions by our scientific editorial team

\*Presentation (medical specialist presentation) \*\*also possible externally on request, for an additional charge. Prices exclude any expert fees.

\*Presentation (medical specialist presentation) \*\*also possible externally on request, for an additional charge. Prices exclude any expert fees.

### **PUBLICATION (4-6 PAGES, A4) DIGITAL (PDF FORMAT)**

- Creation of the expert statement by a Medical Writer
- · Scientific review and exchange with the chairperson
- Project management (approval work, image selection, corrections, layout, production, etc.)

### from € 8,900.-

Production (printing) of the expert statement as a special issue and insert in one of our print publications (incl. 500 copies for free distribution)

### on request

- Moderation by our specialist editorial team\*
- · Coordination of participation and process, reporting
- Major editorial follow-up coverage in the Medical Tribune or a CliniCum specialist title
- Major online coverage on medonline and on social media
- Logo in info box or logo bar
- Project management (approval work, image selection, corrections, layout, production, etc.)

Single sponsoring or multi-sponsoring: on request

# DATA & DALOGUE

**Distribution Products Dear Doctor Letter** Mailing Sending faxes

Master data database

Data & Consulting Dynamic Targeting **Key Opinion Leader Analysis Affinity Analysis Network Analysis Channel Behaviour** 

TeleServices TeleMarketing **TeleSales** Hotline Market Research

# DISTRIBUTION PRODUCTS

# **Joint Dear Doctor Letter**

Dear Doctor letters (known as "red hand letters") are handled reliably and as needed in direct coordination with AGES in a resource-saving way in combination as email and postal dispatch.

### YOUR BENEFITS

- Reliable process specifically for Dear Doctor Letters
- Advice and translation of guidelines for selecting target doctors
- · Standardised reporting on mailing and returns
- · Can also be booked as a pure mailing

## MAILING

We will send documents, patient brochures, and studies by post as mailings on your behalf - either as a separate project or in combination with marketing campaigns.

### YOUR BENEFITS

- Quick and easy handling
- · From start to finish: production, contact list, mailing
- · Personalised distribution possible
- · Layout preparing graphics (add-on)

# **SENDING FAXES**

Fax continues to be a popular method for sending concise information.

### YOUR BENEFITS

- Quick and easy handling
- High-performance infrastructure
- High coverage of fax numbers
- Target group selected individually in coordination with the client's wishes
- · Personalised distribution possible

To ensure optimal readability and the conservation of resources for the target group, fax templates must be in black and white. In addition, we recommend avoiding the use of grey scale or large images or backgrounds.

### **OPTIONAL ADD-ONS**

- Data matching
- Sending mailing lists for documentation purposes
- Documentation, handling returns and, if needed, forwarding
- Layout preparing graphics

### PROJECT EXAMPLE

Sending Dear Doctor Letters in Austria

### Price on request

We recommend that in the case of doctors working in hospitals, you select a reasonable number of addressees (e.g. one department head with a request that they distribute or display the notice internally).

### PROJECT EXAMPLE

Mailing to 500 HCPs in Austria Postage rates will be calculated 1:1 at actual cost

### from € 1,500.-

In hospitals, a reasonable number of addressees (e.g. at department head level with a request that they distribute or display the notice internally) will be selected because the target group here has too many overlapping fax numbers (e.g. one device per department).

### **OPTIONAL ADD-ONS**

- Express same-day sending (assignment and documents until 11 a.m.)
- Double-sided sending
- Layout preparing graphics (add-on)

### PROJECT EXAMPLE

Sending faxes to 1,000 pharmacists in Austria incl. selection of target groups

### from € 1,750.-

# **DATA AT THE HIGHEST LEVEL**

Exclusive validation sources make us the data experts in health care

82% MedTriX internal In-house multilingual

- clearing team Telephone validation of
- all clearing Requests
- Proactive verification and updating of data sets
- Short response time max. 24 hours
- Knowledge of the real situation

18% Inputs from the field

We have more than 25 years of experience in working with data. A clearing team ensures proactive verification as well as daily updating of data sets. This results in 55,000 productive changes per year or an average of 275 changes per day.

In total, our database accesses more than 104,000 active persons in the health sector.

Take advantage of our broad portfolio and other benefits:

### COMPATIBLE

Alignment with your CRM and software solutions; without internal process changes in the operative business area; optimal basis for your data; recorded information of your clientele is matched and supplemented

# **TARGET GROUP SEGMENTATION**/ CONSULTING

## DYNAMIC TARGETING

In-depth look at personal level and brief overview of the entire target group

In four steps, dynamic targeting offers a comprehensive, data-based and objective view of an indication across the Austrian and Swiss HCP landscape:

- 1. Evaluation of practice and/or hospital:
- Evaluation of practice environment (>170 parameters available), practice services, number of cases, relevant departments and medical specialists, specialisations, size of institution, scientific activities, and much more.
- 2. Affinity Analysis:
- Affinity/interest of the HCP on the respective indication 3. KOL Analysis:
- Analysis of opinion leaders on the respective indication 4. (optional) In-house/customer data:
- Sales figures, field work insights, market research data and much more

### **OPTIONAL ADD-ONS**

- Definitions of personas
- Network analysis
- Channel behaviour data
- Area structuring

### YOUR BENEFITS

- Unique combination of KOL and affinity analysis with individually definable environment, practice and hospital parameters
- Objective and very comprehensive analysis of the target group
- Analysis directly tailored to your needs
- Identification of new potentials independent of previous sales figures and key opinion leaders
- · High granularity and target accuracy in HCP selection
- Transparent results
- · Processing of results and derivation of recommendations for action by an experienced team
- · Can be combined flexibly with other products such as market research

Dynamic targeting is carried out for an indication and for up to three selected professional groups. All doctors in the relevant target group, including categorisation and detailed information, are transmitted.

All prices excl. statutory taxes Your tailored solution: price on request

### PROIECT PROCESS

- Assigning the project for the indication practice/hospital
- Preparing parameters for launch (MedTriX)
- · Joint kick-off workshop
- · Sending protocol and approval by client
- Analysis stage
- Interim feedback call with clients
- Analysis/finalisation of results
- · Results presentation workshop and delivery

### PROIECT EXAMPLE

Practice or hospital targeting for an indication and up to three specialist areas in Austria or Switzerland

from € 30,900.-

- -

## **KEY OPINION LEADER ANALYSIS** Find experts instead of searching for experts: we identify all key opinion leaders for your indication.

### YOUR BENEFITS

- Identification of new speakers
- Identification of new multipliers, aspiring and interdisciplinary experts
- The analysis is not associated with specialist groups or areas of activity (this can, of course, be refined according to client wishes)
- · Detailed information on each activity identified as being relevant

We will provide you with a multidisciplinary analysis of all experts active in your selected indication.

Jointly defined keywords will be used to screen activities on the indication via the following channels:

- Publications, journals
- · (DFP-certified) events
- Opinions expressed online
- · Investigators/leaders of clinical studies
- · Medical companies, patient organisations

## **AFFINITY ANALYSIS** A detailed view of doctors interested in an indication

Analysis at an individual personal level presenting interests or further training behaviour regarding a given indication. A range of channels will be screened using jointly defined keywords. Furthermore, the practice services will be taken into consideration.

### YOUR BENEFITS

- Unique information on the professional interest in the respective indication
- Find your ideal target group for market penetration, events, mailing lists, further training
- The analysis is not associated with specialist groups or areas of activity (this can, of course, be refined according to client wishes)
- Refining the larger target groups to sections that are relevant for marketing activities
- Expanding smaller target groups with other interested specialist groups

All prices excl. statutory taxes Your tailored solution: price on request

€ 9.500.-

### **NEW: OPTIONAL ADD-ON**

Network analysis

### **PROJECT PROCESS**

- · Joint kick-off session for coordinating targets/defining kevwords
- · Delivery: PowerPoint presentation with summary of the results and a data file with all relevant doctors according to package B with relevance and activities

### PROIECT EXAMPLE

KOL/expert analysis for an indication in Austria or Switzerland

### **PROJECT PROCESS**

- · Joint kick-off session for coordinating targets/
- defining keywords
- Delivery: PowerPoint presentation with summary of the results and a data file with all relevant doctors according to package B with refinement of interests in categories of high/average/low

# Network analysis

Offers an in-depth view of professional cooperation

This analysis offers an in-depth view of professional cooperation of experts in your subject area. Every area and crosspoint in the network can be viewed in detail. The network can be modified and viewed separately via a range of criteria.

On the basis of selected criteria (expert activities such as publications, clinical studies, events, medical associations, etc.), all experts, whether multipliers or young, aspiring doctors, are presented in their relationship to each other as a network of nodes and connecting lines.

### YOUR BENEFITS

- Shows core points and central crosspoints for the indication.
- Shows who is working together with whom and how intensively these collaborations are shaped.
- Identification of interdisciplinary links and core points for the indication
- Identification of central core points
- Collaboration across language areas

Project example: network analysis for an indication in Austria or Switzerland as an add-on to the KOL analysis

from € 4,500.-

# **Area Optimisation**

An area structure adapted to your strategy enables an optimal use of resources

Area	Target doctors	Number of A doctors	Number of B doctors	KOLs	"Buffer" doctors	Number of calls	Area share	
Area 1	267	148	119	3	5	1,928	7,1%	
Area 2	274	181	93	4	23	2,141	9,1%	
Area 3	268	147	121	6	4	1,952	8.6%	
Area 4	277	156	121	7	86	2,439	8,9%	

### Area ratio taking into account:

- Strategic orientation of the company
- Focused sales representatives
- (KAM, KOL support, stakeholders, etc.)
- Possible workload per sales representative
- Driving distances / daily tours

# **Channel Behavior**

Information on the usage behaviour for a wide range of doctor networks is available at doctor level.

ID	Form of address	Title	First name	Surname	Print/post	Event	Fax	Phone	Email	Online
58772	Mr	Prim. Dr	Christian	К.	high	average	high	low	average	high
40847	Ms	Dr	Karin	В.	average	low	low	high	low	low
32172	Ms	OA Dr.	Brigitte	W.	low	high	average	low	high	low
78354	Mr	Dr	Herbert	S.	average	high	low	average	high	high

Project example for dermatologists

**USAGE/OBSERVED DATA** 

All prices excl. statutory taxes Your tailored solution: price on request

### MEDIA KIT 2024 • MedTriX Group

other criteria

- Current "doctor-employee contacts"
- Equal distribution of potential for all staff (sales, A doctors, etc.)
- "Buffer" doctors for more flexible arrangement for the ad

from € 4.500.-

There is a range of channels available for communicating with the doctor. The goal is to create an optimal combination of the options available and to coordinate them.

from € 4,950.-
